高温蒸煮//自立/粒链

Qingdao Advanmatch Packaging Co.,Ltd is a plastic packaging professional manufacturer with advanced technology & good reputation across the world. Our workplace is located in Qingdao, China.

With about 20 years printing & production experiences, we specialize in producing flexible packaging materials in good quality to meet customers' different requirements. Our business markets have expanded to USA, Canada, Japan, Korea, Europe, Australia, New Zealand etc.

We have two 10-color printing presses, two lamination machines, one slitting machine, seven high-speed bag-making machines. Our annual production quantity could reach 2 million tons of all kinds of plastic packaging materials. We continuously improve management and inspection of raw material & quality of products.

Qingdao Advanmatch company is conscious of eco-friendly importance. In order to fulfill our environmental responsibility and make sure employees' health, we had air purification & air intake/exhaust system. This could make sure the working environmental more safe & comfortable.

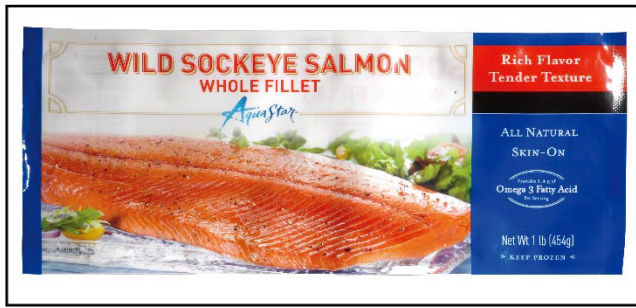

We take use of eco-friendly ink which don't contain benzene, ketone & without other toxic substances. This make sure our packaging products are environmental, non-toxic, safe-health.

Advanmatch packaging provides the innovative solutions that will lower your operating costs, increase your productivity and positively impact your bottom line.
